Our Guarantee

All sale bulls have been evaluated for structural soundness and fertility. To the best of our knowledge all catalogued bulls are in sound working condition at the time of sale.

Insurance

It maybe prudent to protect your new investment with insurance, with many companies offering 3, 6 or 12 months cover. Please contact selling agents for information.

Disclaimer

All reasonable care has been taken to ensure that the information provided in this catalogue is correct. However neither the vendors, selling agents or representatives thereof assume any responsibility whatsoever for the correctness, use or interpretation of the information on animals included in this catalogue.

Caring For your Bull

When a bull leaves our farm he is leaving the security of his mob and his position within that mob. He will arrive in unfamiliar territory at your property. To minimize the stress on the bull make sure he has a steer or a pregnant cow as a companion. Do not put him in with other bulls in the beginning.

All bulls have been clinically examined by our vet prior to sale. They have also been semen and morphology tested. The bulls are in good joining condition at the point of the sale. Some conditions cannot be detected or tested for, therefore we recommend that you should check the bulls regularly throughout joining.
